EXPERIMENT NO:12

Experiment 12: Evolution from 1G to 5G Using Figma

1. Aim

To create an interactive diagram illustrating the evolution of mobile communication technologies from 1G to 5G using Figma.

2. Requirements

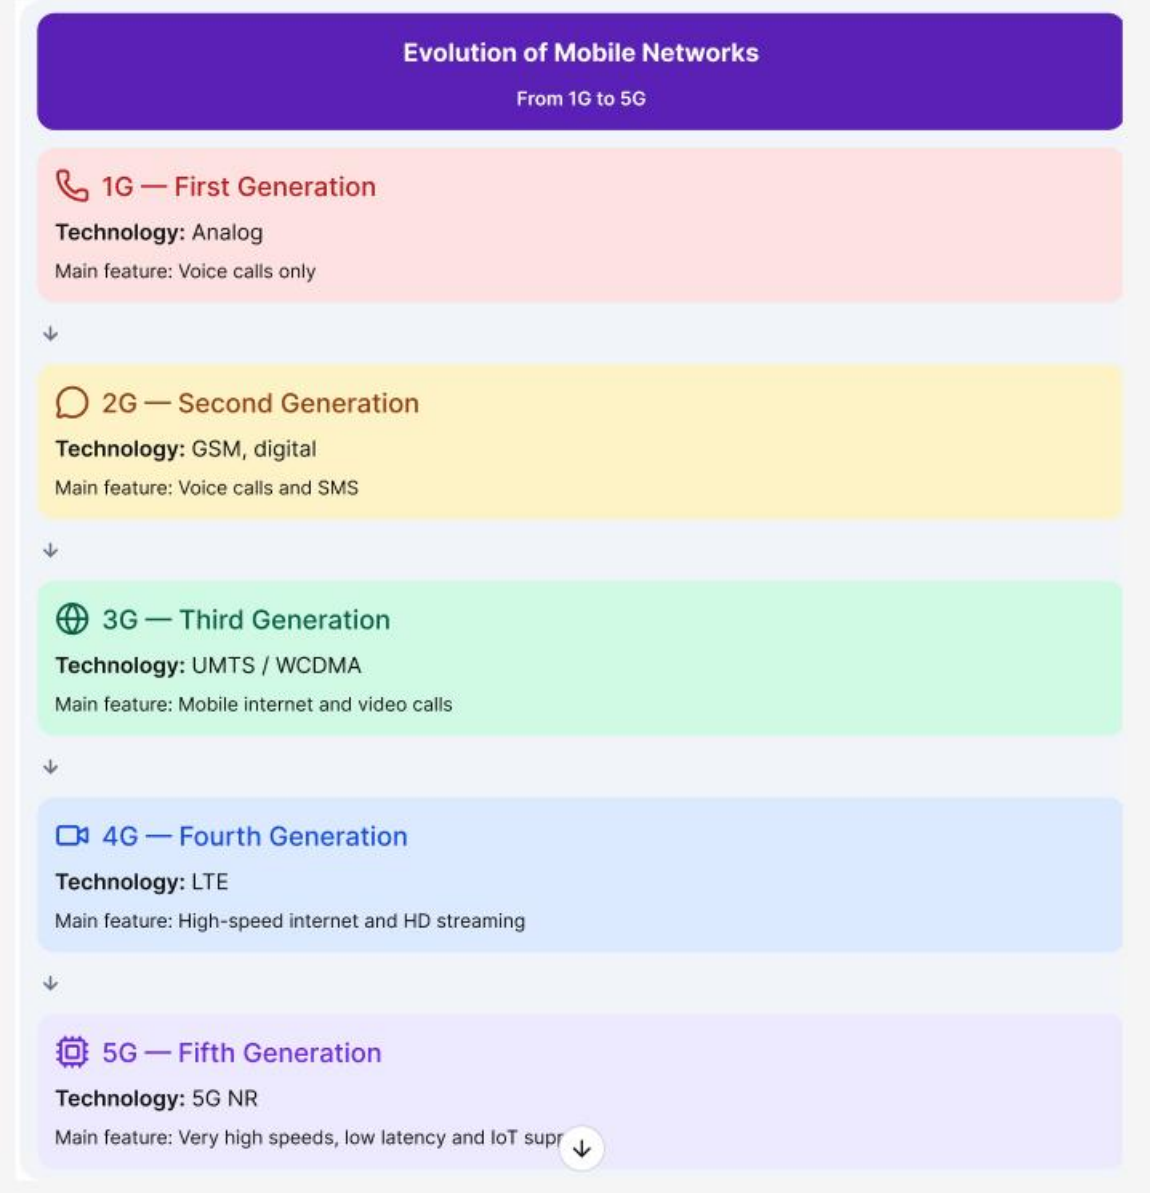

- Figma
- Web browser
- Internet connection

3. Procedure

1. Open Figma.
2. Create a new design file and select a desktop frame.
3. Add the heading Evolution of Mobile Networks: 1G to 5G.
4. Create five boxes representing 1G, 2G, 3G, 4G and 5G.
5. Add the technology, main features and services of each generation.
6. Arrange the boxes in chronological order.
7. Use different colours and suitable icons.
8. Open the Prototype tab and connect the boxes to detailed frames.
9. Click Present to view the interactive diagram.

4. Output

A diagram showing the development of mobile communication from analog voice calls in 1G to high-speed, low-latency communication in 5G.

5. Result

Thus, an interactive diagram illustrating the evolution of mobile communication technologies from 1G to 5G was designed using Figma.
