EXPERIMENT NO:14

Experiment 14: GPRS Operation Flowchart Using Figma

1. Aim

To develop a flowchart in Figma explaining the operation of General Packet Radio Service (GPRS).

2. Requirements

- Figma
- Web browser
- Internet connection

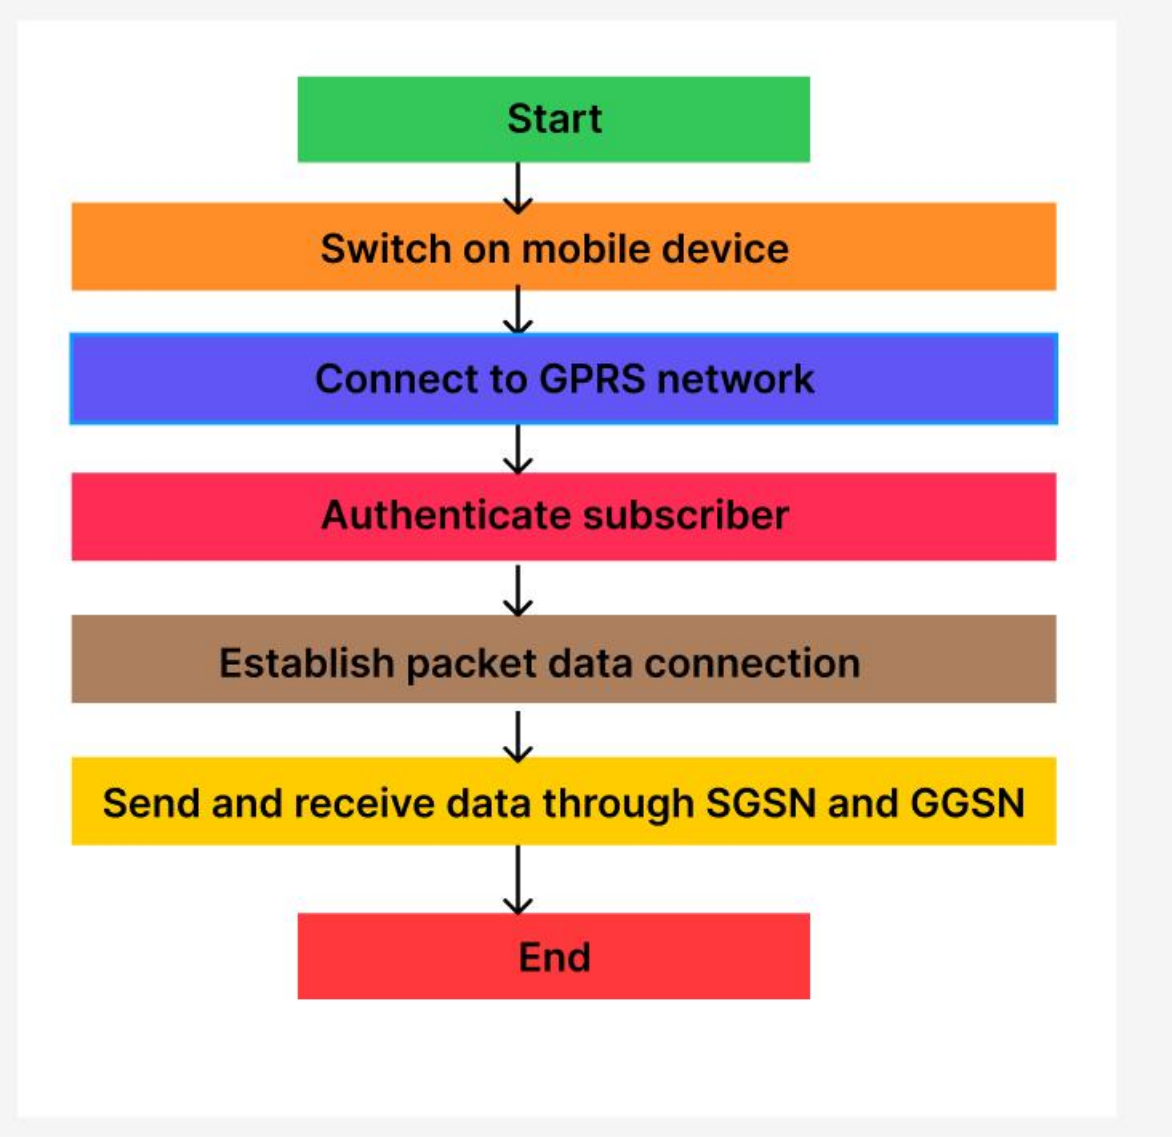

3. Procedure

1. Open Figma and create a new design file.
2. Press F and select a desktop frame.
3. Add the heading GPRS Operation Flowchart.
4. Use an oval for Start and End, rectangles for processing steps, and a diamond for decisions.
5. Add the following steps in order:
    - Start
    - Switch on the mobile device.
    - Connect to the GPRS network.
    - Authenticate the subscriber.
    - Establish a packet data connection.
    - Send and receive data.
    - End
6. Connect all shapes using arrows.
7. Use different colours for processing and decision steps.

8. Click Present to view the flowchart.

4. Output

A flowchart showing how a mobile device connects to the GPRS network, authenticates the subscriber, establishes packet data connectivity and exchanges data through the GPRS network.

5. Result

Thus, a flowchart explaining the operation of General Packet Radio Service (GPRS) was designed using Figma.
